American Journal of Physiology:
Lung Cellular and Molecular Physiology

No. 1. JULY 1995

EDITORIAL

Cellular neurobiology of respiration
D. E. Rannels L1

Inhaled nitric oxide prevents neutrophil-mediated, oxygen radical-dependent leak in isolated rat lungs
D. M. Guidot, M. J. Repine, B. M. Hybertson, and J. E. Repine L2

Genetic control of susceptibility to ozone-induced changes in mouse tracheal electrophysiology
M. Takahashi, S. R. Kleeberger, and T. L. Croxton L6

Pathways for uptake of fluorescently labeled liposomes by alveolar type II cells in culture
W. J. Muller, K. Zen, A. B. Fisher, and H. Shuman L11

Kinetic analysis of cytosolic pH regulation in alveolar macrophages: V-ATPase-mediated responses to a weak acid
A. Bidani and T. A. Heming L20

Purinergic regulation of ion transport across nonciliated bronchiolar epithelial (Clara) cells
M. R. van Scott, T. C. Chinet, A. D. Burnette, and A. M. Paradiso L30

Bradykinin stimulates bronchial epithelial cells to release neutrophil and monocyte chemotactic activity
S. Koyama, S. I. Rennard, and R. A. Robbins L38

Optimization of cationic lipid-mediated gene transfer to airway epithelia
A. J. Fasbender, J. Zabner, and M. J. Welsh L45

Hypoxia and reoxygenation stimulate biphasic changes in endothelial monolayer permeability
C. A. Partridge L52

Inhibition of poly(ADP-ribose) polymerase preserves surfactant synthesis after hydrogen peroxide exposure
B. B. Hudak, J. Tufariello, J. Sokolowski, C. Maloney, and B. A. Holm L59

Leukotoxin, 9,10-epoxy-12-octadecenoate causes edematous lung injury via activation of vascular nitric oxide synthase
T. Ishizaki, K. Shigemori, T. Nakai, S. Miyabo, T. Ozawa, S.-W. Chang, and N. F. Voelkel L65

Characterization of zinc uptake and its regulation by arachidonic acid in fetal type II pneumocytes
T. J. Ong, P. J. Kemp, R. E. Olver, and H. J. McArdle L71

Reduction of thiazine dyes by bovine pulmonary arterial endothelial cells in culture
R. D. Bongard, M. P. Merker, R. Shundo, Y. Okamoto, D. L. Roerig, J. H. Linehan, and C. A. Dawson L78

Airways of a hyperresponsive rat strain show decreased relaxant responses to sodium nitroprusside
Y. Jia, L. Xu, S. Heisler, and J. G. Martin L85

Regulation of interleukin-1 receptor antagonist by Th1 and Th2 cytokines
J. N. Kline, P. A. Fisher, M. M. Monick, and G. W. Hunninghake L92

Regulation of endothelial cell gap formation and barrier function by myosin-associated phosphatase activities
A. D. Verin, C. E. Patterson, M. A. Day, and J. G. N. Garcia L99

Bronchoalveolar lavage fluid phospholipase A_2 activities are increased in human adult respiratory distress syndrome
D. K. Kim, T. Fukuda, B. T. Thompson, B. Cockrill, C. Hales, and J. V. Bonventre L109

Migration and proliferation of guinea pig and human airway epithelial cells in response to tachykinins
J. S. Kim, K. F. Rabe, H. Magnussen, J. M. Green, and S. R. White L119

Disparate cytokine regulation of ICAM-1 in rat alveolar epithelial cells and pulmonary endothelial cells in vitro
W. W. Barton, S. Wilcoxen, P. J. Christensen, and R. Paine L127

No. 2. AUGUST 1995

Dipeptide transport characteristics of the apical membrane of rat lung type II pneumocytes
D. Meredith and C. A. R. Boyd L137

Ionomycin and PDBU increase MDCK monolayer permeability independently of myosin light chain phosphorylation
D. M. Shasby, J. M. Kamath, A. B. Moy, and S. S. Shasby L144

Leukotriene D_4 facilitates airway smooth muscle cell proliferation via modulation of the IGF axis
P. Cohen, J. P. Noveral, A. Bhala, S. E. Nunn, D. J. Herrick, and M. M. Grunstein L151

Reactive species in ischemic rat lung injury: contribution of peroxynitrite
H. Ischiropoulos, A. B. Al-Mehdi, and A. B. Fisher L158

Effect of surfactant on basal and silica-induced eicosanoid production by the alveolar macrophage
D. C. Kuhn and L. M. Demers L165

Collagen is a survival factor against LPS-induced apoptosis in cultured sheep pulmonary artery endothelial cells
D. G. Hoyt, R. J. Mannix, J. M. Rusnak, B. R. Pitt, and J. S. Lazo L171

Antisense oligonucleotides for PDGF-B and its receptor inhibit mechanical strain-induced fetal lung cell growth
M. Liu, J. Liu, S. Buch, A. K. Tanswell, and M. Post L178

Effect of polycations on barrier and transport properties of alveolar epithelium in situ
G. Saumon, P. Soler, and G. Martet L185

Effects of cystic fibrosis airway secretions on rat lung: role of neutrophil elastase
D. D. Rees and J. D. Brain L195

Inhibition of glycolysis by 2-DG increases $[Ca^{2+}]_i$ in pulmonary arterial smooth muscle cells
R. T. Bright, C. G. Salvaterra, L. J. Rubin, and X.-J. Yuan L203

Surfactant treatment and ventilation effects on surfactant SP-A, SP-B, and SP-C mRNA levels in preterm lamb lungs
E. Woods, T. Ohashi, D. Polk, M. Ikegami, T. Ueda, and A. H. Jobe L209

Hypoxia decreases endothelin-1 synthesis by rat lung endothelial cells
B. A. Markewitz, D. E. Kohan, and J. R. Michael L215

Effects of hypoxia on MnSOD expression in mouse lung
W. J. Russell, Y.-S. Ho, G. Parish, and R. M. Jackson L221

Time course of airway hyperresponsiveness and remodeling induced by hyperoxia in rats
J. L. Szarek, H. L. Ramsay, A. Andringa, and M. L. Miller L227

Serotonin-evoked calcium transients in airway smooth muscle cells
B. Tolloczko, Y. L. Jia, and J. G. Martin L234

Correlation of expression of transcription factor C/EBPα and surfactant protein genes in lung cells
F. Li, E. Rosenberg, C. I. Smith, K. Notarfrancesco, S. R. Reisher, H. Shuman, and S. I. Feinstein L241

Fibronectin attenuates increased endothelial monolayer permeability after RGD peptide, anti-$\alpha_5\beta_1$, or TNF-α exposure
T. M. Curtis, P. J. McKeown-Longo, P. A. Vincent, S. M. Homan, E. M. Wheatley, and T. M. Saba L248

γ-Glutamyl transpeptidase is a polarized alveolar epithelial membrane protein
D. H. Ingbar, K. Hepler, R. Dowin, E. Jacobsen, J. M. Dunitz, L. Nici, and J. D. Jamieson L261

No. 3. SEPTEMBER 1995

INVITED REVIEW

Differential display RT-PCR for identifying novel gene expression in the lung
M. E. Sunday L273

Glutathione homeostasis in alveolar epithelial cells in vitro and lung in vivo under oxidative stress
I. Rahman, X. Y. Li, K. Donaldson, D. J. Harrison, and W. MacNee L285

Alterations in pulmonary artery tone during repeated episodes of hypoxia
B. C. Yang and J. L. Mehta L293

In situ localization of sodium-potassium ATPase mRNA in developing mouse lung epithelium
R. G. Crump, G. R. Askew, S. E. Wert, J. B. Lingrel, and C. H. Joiner L299

Substance P (NK_1)- and neurokinin A (NK_2)-receptor gene expression in inflammatory airway diseases
T. R. Bai, D. Zhou, T. Weir, B. Walker, R. Hegele, S. Hayashi, K. McKay, G. P. Bondy, and T. Fong L309

Bleomycin induces apoptosis in human alveolar macrophages
R. F. Hamilton, Jr., L. Li, T. B. Felder, and A. Holian L318

Leukotoxin, 9,10-epoxy-12-octadecenoate inhibits mitochondrial respiration of isolated perfused rat lung
T. Sakai, T. Ishizaki, T. Ohnishi, F. Sasaki, S. Ameshima, T. Nakai, S. Miyabo, S. Matsukawa, M. Hayakawa, and T. Ozawa L326

Hydrogen peroxide contracts human airways in vitro: role of epithelium
K. F. Rabe, G. Dent, and H. Magnussen L332

Tachykinin regulation of airway smooth muscle cell proliferation
J. P. Noveral and M. M. Grunstein L339

Keratinocyte growth factor increases mRNAs for SP-A and SP-B in adult rat alveolar type II cells in culture
K. Sugahara, J. S. Rubin, R. J. Mason, E. L. Aronsen, and J. M. Shannon L344

Mechanisms of hypoxic vasodilation in ferret pulmonary arteries
C. M. Wiener, M. R. Banta, M. S. Dowless, N. A. Flavahan, and J. T. Sylvester L351

Composition of human airway mucins and effects after inhalation of acid aerosol
D. J. Culp, L. R. Latchney, M. W. Frampton, M. R. Jahnke, P. E. Morrow, and M. J. Utell L358

Electrophoretic analysis of contractile proteins of the diaphragm in chronically hypoxic rats
J. P. Mortola and L. Naso L371

Bronchial epithelial cells regulate fibroblast proliferation
Y. Nakamura, L. Tate, R. F. Ertl, M. Kawamoto, T. Mio, Y. Adachi, D. J. Romberger, S. Koizumi, G. Gossman, R. A. Robbins, J. R. Spurzem, and S. I. Rennard L377

Effects of sodium concentration on human neutrophil bactericidal functions
J. P. Mizgerd, L. Kobzik, A. E. Warner, and J. D. Brain L388

Pulmonary cytochrome *P*-450 monooxygenase system and Clara cell differentiation in rats
C.-M. Ji, W. V. Cardoso, A. Gebremichael, R. M. Philpot, A. R. Buckpitt, C. G. Plopper, and K. E. Pinkerton L394

Location of focal silver staining at endothelial gaps in inflamed venules examined by scanning electron microscopy
A. Hirata, P. Baluk, T. Fujiwara, and D. M. McDonald L403

Expression of transforming growth factor-β type II receptor in rat lung is regulated during development
Y. Zhao and S. L. Young L419

No. 4. OCTOBER 1995

EDITORIAL

Times of change
L. R. Johnson L427

INVITED REVIEW

Transcription factors and pattern formation in the developing lung
W. V. Cardoso L429

Corticosteroid inhibition of macrophage inflammatory protein-1α in human monocytes and alveolar macrophages
N. Berkman, P. J. Jose, T. J. Williams, T. J. Schall, P. J. Barnes, and K. F. Chung L443

Cellular uptake of albumin from lungs of anesthetized rabbits
R. H. Hastings, H. G. Folkesson, V. Petersen, R. Ciriales, and M. A. Matthay L453

Retinoids, retinoic acid receptors, and cytoplasmic retinoid binding proteins in perinatal rat lung fibroblasts
S. E. McGowan, C. S. Harvey, and S. K. Jackson L463

Glutathione *S*-transferases in tracheobronchial epithelium
P. M. S. Reddy, C.-P. D. Tu, and R. Wu L473

Tenascin in rat lung development: in situ localization and cellular sources
Y. Zhao and S. L. Young L482

Phosphocholine reverses inhibition of pulmonary surfactant adsorption caused by C-reactive protein
T. M. McEachren and K. M. W. Keough L492

Enhanced proliferation and IL-2 secretion by lung lymphocytes from HIV-infected subjects
B. A. Spain, D. M. Soliman, R. A. Sidner, and H. L. Twigg L498

Influence of PLC and MLCK inhibitors and the role of L-calcium channels in the cat pulmonary vascular bed
A. D. Kaye, B. D. Nossaman, I. N. Ibrahim, and P. J. Kadowitz L507

Heparin and PGE_2 inhibit DNA synthesis in human airway smooth muscle cells in culture
P. R. A. Johnson, C. L. Armour, D. Carey, and J. L. Black L514

Regulation of fluid-phase endocytosis in alveolar macrophages
G. Pataki, L. Czopf, T. Jilling, N. Marczin, J. Catravas, and S. Matalon L520

Neutrophils enhance removal of ozone-injured alveolar epithelial cells in vitro
J. M. Cheek, R. J. McDonald, L. Rapalyea, B. K. Tarkington, and D. M. Hyde L527

Regulation of cytokeratin expression in rat lung alveolar epithelial cells in vitro
R. Paine, D. Gaposchkin, C. Kelly, and S. E. Wilcoxen L536

Combined effects of nitric oxide and hyperoxia on surfactant function and pulmonary inflammation
C. G. Robbins, J. M. Davis, T. A. Merritt, J. D. Amirkhanian, N. Sahgal, F. C. Morin III, and S. Horowitz L545

TNF-α induces peroxynitrite-mediated depletion of lung endothelial glutathione via protein kinase C
D. T. Phelps, T. J. Ferro, P. J. Higgins, R. Shankar, D. M. Parker, and A. Johnson L551

No. 5. NOVEMBER 1995

Role of CFTR in chloride secretion across human tracheal epithelium
B.-Q. Shen, R. J. Mrsny, W. E. Finkbeiner, and J. H. Widdicombe L561

Phosphatidylcholine molecular species of calf lung surfactant
M. C. Kahn, G. J. Anderson, W. R. Anyan, and S. B. Hall L567

Hypoxia inhibits L-arginine uptake by pulmonary artery endothelial cells
E. R. Block, H. Herrera, and M. Couch L574

Hypoxia inhibits L-arginine synthesis from L-citrulline in porcine pulmonary artery endothelial cells
Y. Su and E. R. Block L581

Activation of NF-κB and elevation of MnSOD gene expression by thiol reducing agents in lung adenocarcinoma (A549) cells
K. C. Das, Y. Lewis-Molock, and C. W. White L588

Sequence of rat surfactant protein A gene and functional mapping of its upstream region
C. I. Smith, E. Rosenberg, S. R. Reisher, F. Li, P. Kefalides, A. B. Fisher, and S. I. Feinstein L603

Antioxidant-surfactant liposomes mitigate hyperoxic lung injury in premature rabbits
F. J. Walther, R. David-Cu, and S. L. Lopez L613

In vivo lipopolysaccharide pretreatment inhibits cGMP release from the isolated-perfused rat lung
M. M. Kurrek, W. M. Zapol, A. Holzmann, G. Filippov, M. Winkler, and K. D. Bloch L618

Dietary changes improve survival of CFTR S489X homozygous mutant mouse
E. A. Eckman, C. U. Cotton, D. M. Kube, and P. B. Davis L625

Tachykinins induce gelatinase production by guinea pig alveolar macrophages: involvement of NK_2 receptors
M.-P. D'Ortho, P.-H. Jarreau, C. Delacourt, S. Pezet, C. Lafuma, A. Harf, and I. Macquin-Mavier L631

Potential role of NADH oxidoreductase-derived reactive O_2 species in calf pulmonary arterial Po_2-elicited responses
K. M. Mohazzab-H., R. P. Fayngersh, P. M. Kaminski, and M. S. Wolin L637

Mechanism of impaired β-adrenoceptor responsiveness in atopic sensitized airway smooth muscle
H. Hakonarson, D. J. Herrick, and M. M. Grunstein L645

Intratracheal injection of endotoxin and cytokines. IX. Contribution of CD11a/ICAM-1 to neutrophil emigration
W. W. Tang, E. S. Yi, D. G. Remick, A. Wittwer, S. Yin, M. Qi, and T. R. Ulich L653

Enhanced growth of fetal and neonatal pulmonary artery adventitial fibroblasts is dependent on protein kinase C
M. Das, K. R. Stenmark, and E. C. Dempsey L660

Effects of separate and combined ET_A and ET_B blockade on ET-1-induced constriction in perfused rat lungs
K. Sato, M. Oka, K. Hasunuma, M. Ohnishi, K. Sato, and S. Kira L668

Na^+/H^+ exchange in pulmonary artery smooth muscle from spontaneously hypertensive and Wistar-Kyoto rats
E. S. Silverman, B. T. Thompson, D. A. Quinn, T. B. Kinane, J. V. Bonventre, and C. A. Hales L673

Putrescine uptake in hamster lung slices and primary cultures of type II pneumocytes
P. H. M. Hoet, C. P. L. Lewis, D. Dinsdale, M. Demedts, and B. Nemery L681

ET_A-receptor antagonist prevents and reverses chronic hypoxia-induced pulmonary hypertension in rat
V. S. DiCarlo, S.-J. Chen, Q. C. Meng, J. Durand, M. Yano, Y.-F. Chen, and S. Oparil L690

MODELING IN PHYSIOLOGY

Mechanisms for the generation of gas-exchange surface area in rat lung
L. N. Blanco L698

RAPID COMMUNICATIONS

Human lung cell β_2-adrenergic receptors desensitize in response to in vivo administered β-agonist
J. Turki, S. A. Green, K. B. Newman, M. A. Meyers, and S. B. Liggett L709

cAMP generation inhibits inositol 1,4,5-trisphosphate binding in rabbit tracheal smooth muscle
C. M. Schramm, S. T. Chuang, and M. M. Grunstein L715

No. 6. DECEMBER 1995

Differential regulation of the mannose and SP-A receptors on macrophages
Z. Chroneos and V. L. Shepherd L721

Posttranslational processing of surfactant protein C in rat type II cells
D. K. Vorbroker, W. F. Voorhout, T. E. Weaver, and J. A. Whitsett L727

Ozone exposure of human tracheal epithelial cells inactivates cyclooxygenase and increases 15-HETE production
S. E. Alpert and R. W. Walenga L734

Synthesis and processing of hydrophobic surfactant protein C by isolated rat type II cells
M. F. Beers and C. Lomax L744

Composition of extracellular matrix of type II pulmonary epithelial cells in primary culture
S. E. Dunsmore, C. Martinez-Williams, R. A. Goodman, and D. E. Rannels L754

Turnover of fibronectin and laminin by alveolar epithelial cells
S. E. Dunsmore, C. Martinez-Williams, R. A. Goodman, and D. E. Rannels L766

Cholinergic regulation of voltage-dependent Ca^{2+} channels in porcine tracheal smooth muscle cells
M. Yamakage, C. A. Hirshman, and T. L. Croxton L776

Role of muscarinic M_2 receptors in regulating β-adrenergic responsiveness in maturing rabbit airway smooth muscle
C. M. Schramm, N. C. Arjona, and M. M. Grunstein L783

Plasticity of airway cell proliferation and gene expression after acute naphthalene injury
B. R. Stripp, K. Maxson, R. Mera, and G. Singh L791

Cellular response in naphthalene-induced Clara cell injury and bronchiolar epithelial repair in mice
L. S. Van Winkle, A. R. Buckpitt, S. J. Nishio, J. M. Isaac, and C. G. Plopper L800

Fibroblasts isolated after fibrotic lung injury induce apoptosis of alveolar epithelial cells in vitro
B. D. Uhal, I. Joshi, A. L. True, S. Mundle, A. Raza, A. Pardo, and M. Selman L819

Oxidant-sensitive and phosphorylation-dependent activation of NF-κB and AP-1 in endothelial cells
A. Barchowsky, S. R. Munro, S. J. Morana, M. P. Vincenti, and M. Treadwell L829

Differential tachykinin receptor subtype activation in capsaicin and KCl contractions of guinea pig trachealis
R. W. Mitchell, I. M. Ndukwu, A. Herrnreiter, K. Uzendoski, B. Gitter, J. Solway, and A. R. Leff L837

Expression of iNOS in cultured rat pulmonary artery smooth muscle cells is inhibited by the heat shock response
H. R. Wong, J. D. Finder, K. Wasserloos, and B. R. Pitt L843

Lipopolysaccharide upregulates surface expression of CD14 on human alveolar macrophages
H. A. Hopkins, M. M. Monick, and G. W. Hunninghake L849

CFTR gene transfer corrects defective glycoconjugate secretion in human CF epithelial tracheal cells
M. Mergey, M. Lemnaouar, D. Veissiere, M. Perricaudet, D. C. Gruenert, J. Picard, J. Capeau, M.-C. Brahimi-Horn, and A. Paul L855

Respiratory syncytial virus increases IL-8 gene expression and protein release in A549 cells
M. A. Fiedler, K. Wernke-Dollries, and J. M. Stark L865

Activation of L-type Ca^{2+} channels after purinoceptor stimulation by ATP in an alveolar epithelial cell (L2)
P. Dietl, T. Haller, B. Wirleitner, H. Völkl, F. Friedrich, and J. Striessnig L873

RAPID COMMUNICATION

mob-1 Expression in IL-2-induced ARDS: regulation by TNF-α
L. F. Neville, F. Abdullah, P. M. McDonnell, P. R. Young, G. Z. Feuerstein, and R. Rabinovici L884

CORRIGENDA

Volume 268, May 1995
Volume 12, May 1995

Page L739: He Jiang, Kang Rao, Xueliang Liu, Gang Liu, and Newman L. Stephans. "Increased Ca^{2+} and myosin phosphorylation, but not calmodulin activity in sensitized airway smooth muscles." This title is incorrect and conveys the opposite meaning of the article. The correct title should read: "Intracellular Ca^{2+}, myosin light chain phosphorylation, and calmodulin activity in ragweed pollen-sensitized airway smooth muscles."
